Why Choose Duality Healthcare?

Duality Healthcare is a Private Primary Care service offering professional patient care, treatment & advice to individuals, families & businesses. Our service, whilst similar to the NHS GP has notable differences in terms of our unprecedented level of access, hours of opening and range of services. We believe that our patients' health & wellbeing is paramount.

In treating an illness or condition, time is one of the most important factors. The more time that is wasted before being assessed by a clinician, the longer an illness has the opportunity to develop. For acute illness this means you may take longer to recover & require more time off work or to get back to normal function; for chronic conditions such as hypertension and diabetes this can impact on your longevity & your general health, capability & fitness.

Time is also money. The more time away from your workplace not knowing when you will be spoken to adds a layer of uncertainty you could do without.

At Duality Healthcare we offer appointments at times convenient to you - we are very much a patient-focused organisation. We want to minimise the complexity of booking appointments; have short lead-times to being seen; and aim to minimise time to definitive diagnose, treatment & recovery.

Our priority is you – our patient – and we provide the face-to-face time you need with our clinicians. Seven minutes has traditionally been the average length of an NHS consultation, at Duality Healthcare we make time available, dependent on your needs. We offer GP appointments in a range of 15 minute blocks up to 60 minutes giving you protected time to have your concerns addressed.

We want to see you. Preferably face to face. We do not wish to 'triage' your concerns or make you wait for appointments. Our clinics are based on a model of giving you better access & care than what you have become accustomed to.

Due to our intrinsic knowledge of the interface between the

Private Sector & the NHS, should you need referral or further diagnostic testing not available with Duality Healthcare, we can ensure you are seen quickly and can advise on how to minimise costs.

We provide a relaxed & more comfortable environment, geared towards providing you & your family with a more personal level of service amongst our network.

Although the NHS & Duality Healthcare are separate, we work closely together. By registering with our Service you do not need to end your registration with your NHS GP and we can collaborate with them as much or as little as you may desire.

Although you do not need to be a member to use our services, by subscribing to our membership you are making significant savings on Private Health Services as well as being prioritised in our network of clinics.

Via our memberships, you have: (i) greater flexibility in accessing routine & urgent healthcare; (ii) extended hours of access; (iii) additional services, many of which are usually only available via the hospital; (iv) reduced costs; and (v) regular health checks & screening for the early detection & treatment of illness.

Duality Healthcare membership enables you & your family to get access to the right clinical advice when you need it and with the minimum of delay or stress as a priority patient.

We aim to provide all of this and more to you in an affordable, accessible manner.

We are here to help you with any health concern you may have or direct you to the most appropriate help to facilitate your needs. Our responsibility is to you, and you alone.

Sexual Health

We offer a wide range of Sexual Health testing & services.

From laboratory panels to instant 'results while you wait' our sexual health testing is not only reliable but offers significant savings on other private sector providers.

We provide all our services from a generic Private GP Clinic with no 'Sexual Health' association - i.e. you could be attending the clinic for *any* reason.

Don't neglect your Sexual Health

Make routine checks part of your health planning

Your confidentiality is maintained.

We provide the following services:

If you have symptoms:

- Laboratory testing & a range of panels
- Treatment of genital warts (cryotherapy)
- Prescriptions/treatment/referral for any diagnosis
- Contraceptive advice

If you have no symptoms:

- Rapid 'while you wait' testing
- 20 minutes from testing to results
- As accurate as laboratory testing
- Prescriptions/treatment/referral for any diagnosis

Suitable if:

- You like to get a 6 to 12 monthly MOT
- You are between partners
- You're not sure if you've been exposed to an STD

Minor Surgery / Procedures

Surgery

Our GPs with surgical interest have decades of experience in providing Minor Surgical Procedures in Primary & Secondary Care.

We can assess your concerning lump, bump or cyst, arrange its removal & its pathological assessment at a trusted laboratory partner for definitive diagnosis.

GP Minor Surgery Procedures have excellent outcomes

Cost Savings compared to hospital & rapid access

In each of our locations, we have GPs who specialise in the removal of non-cancerous lesions.

We can:

- Biopsy & laboratory analyse lesions for a diagnosis
- Remove lesions through traditional surgical techniques
- Use cryosurgery to remove skin tags etc

Specific Surgical Techniques

Vasectomy

If you would like a definitive contraceptive solution as a man, consider minimally invasive Vasectomy.

Highly successful, with minimal impact on your working week, this form of vasectomy has been used world-wide for many years with excellent & effective outcomes.

The procedure is safe, can be conducted under a small injection of local anaesthetic to the area, & allows you to get back to work & exercise quickly.

Make an appointment with one of our Specialist GPs to discuss your family planning options.

Dermatology

As well as Surgical Skin procedures many of our GPs have a special interest in dermatology - skin conditions & diagnoses and have consolidated this knowledge with post-graduate qualifications.

Should histological testing of your skin lesion be required, discuss the need for this and associated price with your surgeon.

All our samples are sent to The Doctors Laboratory, a Premium Private Pathology Service based in London.

Blood Panel Testing

At Duality Healthcare we offer a wide range of blood panels through our trusted laboratory partners.

Bloods will often be ordered through our clinicians.

We are happy for patients to book their own blood tests & then arrange follow-up with our clinicians for interpretation & advice, if needed.

You can book a treatment room blood appointment & have any of the following pathology panels ordered:

STD5 Serology only	165
STD6 Serology only without HIV	165
STD9 Symptomatic Lesion sample using PCR Swab from Lesion PCR Swab	161
STI Profile: MSM 1	235
STI Profile: MSM 2	430
Stool for OCP and culture	85
Stool for OVA cysts & parasites by PCR	65
Stool reducing substances	95
Swab (any area)	95
Synacthen Stimulation Test	300
Synovial Fluid (for microscopy and culture)	115
Syphilis by PCR (chancere)	155
Syphilis IgG/IgM	95
TB Quantiferon-TB Gold	150
Thalassaemia Screen	135
Thyroid Profile 1	95
Thyroid Profile 2	195
Thyroid Profile 3	135
Tissue for Culture	95
Tissue Transglutaminase IgA (coeliac)	95
Tissue Transglutaminase IgG	105
Toxoplasma Antibodies (IgG&IgM)	110
Toxoplasma Antibody Full Evaluation (IgM, Dye Test, IgG Acidity)	185
Toxoplasma by PCR	199
Trace Metal (blood) Profile	300
Urine (microscopy)	70
Urine for microscopy and culture	95
Urine Free Light Chains	395
Vaginitis/BV Profile using Culture and PCR Swab	150
Valium (Diazepam)	125
Varicella Zoster Antibodies IgG	105
Varicella Zoster Antibodies IgM	105
Viral Antibody Screen	195
Viral Eye by PCR	155
Viral Respiratory RNA Screen by PCR	325
Viral Skin/Mucosa by PCR	125
Vitamin D (25-OH)	105
Whooping Cough (pertussis) Antibodies	139
Whooping Cough (pertussis) by PCR	139
Yellow Fever antibodies	192

Genetic Testing

At Duality Healthcare we offer a wide range of Genetic Testing Panels through our trusted laboratory partners.

These are only available having first consulted with a GP.

We are happy for patients to book their own blood tests & then arrange follow-up with our clinicians for interpretation & advice, if needed. This does not extend to Genetic testing.

If you would like to book Genetic Testing please make an appointment with one of our General Practitioners.

Our Memberships include yearly bloods

Why pay a one-off cost when you could benefit from membership discounts?

Panel	Hereditary Cancer Risk Full
Cost	£1200

113 genes associated with genetic cancer risk predisposition, including, breast, ovarian, colon, gastric and other inherited cancer syndromes

Gene List				
APC	DDB2	FANCL	PALB2	SLX4
ALK	DICER1	FANCM	PHOX2B	SMAD4
APC	D333L2	PIH	PMS1	SMANCB1

Panel	Hereditary Cancer Risk - 29
Cost	£760

Targeting 29 genes associated with more common inherited cancer syndromes

Gene List				
APC	CEK2	MSH6	PTEN	STK11
ATM	FLCN	MUTYH	RAD51C	TP53
BRIP1	MEI1	NBN	RAD51D	TSC1

Panel	Hereditary Cancer Risk Breast/Ovary
Cost	£550

8 different genes including BRCA1 and BRCA2 associated with both hereditary breast and ovarian cancer

Gene List				
ATM BRCA1	BRCA2 CHEK1	CHEK2 PALB2	PTEN	TP53

Panel	Genetic Coeliac Disease
Cost	£108

RT-PCR and determination of DQ2 and DQ8 antigens associated to coeliac disease.

Gene List	
HLA-DQ2	HLA-DQ8

Panel	Genetic Haemochromatosis
Cost	£118

RT-PCR and determination of DQ2 and DQ8 antigens associated to coeliac disease.

Gene List		
HFE C282Y	HFE H63D	HFE S65C

Panel	Genetic Lactose Intolerance
Cost	£115

Detecting the C13910T and G22018A polymorphisms of the MCM6 gene by RT-PCR

Gene List	
C13910T	G22018A

Panel	Hereditary Cardiac Risk - Full
Cost	£899

Comprehensive identification of causal variants implicated in inherited cardiac conditions (ICCs).
